

G.M. PEPIN HOLDINGS INC.

Six weeks. A plan you can both step back from.

A private proposal · May 2026

There's a version of this where you step back on your terms — and everything you built keeps moving.

THE PLAN

PHASE 1

NOW · 2026

Discover

- What's in your head becomes a system
- Voice notes replace phone calls
- Costs and assets go on paper
- Your wife sees the full picture

PHASE 2

2027

Run

- The hotel runs shift to shift without you
- Deer Lake store shares the same layer
- Volume purchasing kicks in for both
- The band has a plan to show the band

PHASE 3

2028

Step Back

- You're no longer in every call
- The Deer Lake contract is running
- What you built keeps moving
- The next chapter is yours to design

HOW PHASE 1 WORKS

A voice note on your time

In the truck, between calls, in French or English — you talk, I build it into something usable. The difference between a voice note on your time and a phone call on her time is everything.

You keep running the hotel

No planning room. No new systems to learn. I handle the thinking that keeps getting pushed off. Six weeks — then you have something real to hand over.

HOW IT GETS PAID FOR

**No new cheque.
The \$72,000 is already there.**

Phase 1 · Discovery · \$28,000

The remaining balance funds what you both decide comes next.

TO START

**One conversation —
both of you if you'd like.**

What does stepping back actually look like — for both of you?

A reply is enough to reactivate.
