STATUS THIS QUARTER

Hard Rule 02 holds

Every shared role's Deer Lake share met or beat the contracted baseline this quarter. Salt and internal design continue.

HOW THE TRIGGER WORKS

For each shared role: actual Deer Lake share = Deer Lake hours ÷ total hours across all four pillars. If actual is below the contracted baseline, the row is flagged **Under baseline**. The Prev Q under? box must be set from the **prior quarter's filed report** — not from memory — so the two-in-a-row check can't be quietly skipped. When both are true the row turns red and salt + internal design pause.

BOOKKEEPER'S NOTES (PER ROLE)	
Operations Manager	~28 hrs/week. Deer Lake: store-manager 1:1s, weekly staffing + supplier coordination, monthly P&L walk-thr
Bookkeeper / Admin	~12 hrs/week. Deer Lake: store payroll, vendor pay-runs, monthly statement to the band council, this Hours-
IT/Tech	~15 hrs/week plus on-call. Deer Lake: POS upkeep, inventory sync, in-store networking, payment-terminal u
Food Handler	~30 hrs/week at the Deer Lake store: receiving, prep, cold-chain checks, daily food-safety log. Back-office tir

HARD RULE 02

Deer Lake gets first call on the shared team. Salt and internal design fill white space — never compete for it.
